

MB200

Pocket Scanner

CHAMPTEK[®]
We value your ID's

Introduction

MB200 is a brand new compact design which is especially for ticketing, stocktaking or logistic market. With its tiny body, it can be easily carried in pocket or bag for mobility application. It can easily connect to the mobile device as a host by Bluetooth technology and transfer all the scanned data immediately to the corresponding application program.

With its auto-shuttle-emulation-like smart detection that offers superior decoding on a reading speed up to 500 scans per second and up to 500mm reading depth for the majority of 1D barcodes, the scanner delivers excellent decoding performance.

MB200 is absolutely a high performance compact barcode scanner that provides the most cost-effective solutions in the market. It is perfectly suitable and definitely the best choice for the application with mobile devices.
